DETAILED ACTION

This Office action is in answer to the application filed 8/27/2003.

EXAMINER'S AMENDMENT

- 1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 2. The application has been amended as follows:

In the drawings:

Conventional names to be shown in figures 1-4, 7 and 8, e.g. selector circuit, charger circuit, etc. (as per attached revised drawings).

Formal drawings to be submitted.

Allowable Subject Matter

Claims 1-23 are allowed.

With regard to claims 1-10: none of the references of record prior to applicant's filing date discloses, teaches, or suggests a power supply system comprising, *inter alia*, a selector circuit configured to close first, second, third, and fourth switch to allow discharging of a first battery and a second battery in parallel if a first discharge current level from said first battery is greater than a first discharge threshold level and a second discharge current level from said second battery is greater than a second discharge threshold level.

With regard to claims 11-20: none of the references of record prior to applicant's filing date discloses, teaches, or suggests an electronic device comprising, *inter alia*, a selector circuit configured to close first, second, third, and fourth switch to allow discharging of a first battery and a second battery in parallel if a first discharge current level from said first battery is greater than a first discharge threshold level and a second discharge current level from said second battery is greater than a second discharge threshold level.

Application/Control Number: 10/649,394 Page 3

Art Unit: 2838

With regard to claims 21-23: none of the references of record prior to applicant's filing date discloses, teaches, or suggests a method of ensuring safe operation of batteries in parallel comprising, *inter alia*, the step of comparing a first current signal to a first threshold current level and a second current signal to a second threshold current level; and coupling a first battery and a second battery in parallel to a common node if said first current signal is greater than said first threshold current level and said second current signal is greater than said second current level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pia Tibbits whose telephone number is (571) 272-2086. The Technology Center Fax number is (703) 872-9306.
- Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
